OVERVIEW

This small, family-run cidery in the heart of Washington apple country crafts ciders from some of the best apples on earth.

Our approach is to highlight the incredible flavors cider apples provide, and deliver that complexity in a delicious bubbly experience. Graceful aging allows the tannins to mature into rich flavors before bottling.

Flavorful blends come from a wide variety of old French, English and American cider and heirloom apple varieties such as Muscadet de Dieppe, Yarlinton Mill, Kingston Black, Calville Blanc d'Hiver, as well as new up-and-coming varieties. Each variety has its own characteristic aromas and tannins; we blend them into complex ciders.

Three Generations

1940 Fredrick Ringsrud heads west from North Dakota to farm apples, pears, cherries & grapes in Washington

1974 Peter & Mary Ann Ringsrud purchased and raised their family on a 1960's apple orchard

2005 Cider fever hits; Peter, Paul, Tim & Grace study cidemaking under UK's Peter Mitchell
