2014 Knights Valley Sauvignon Blanc

This wonderful Sauvignon Blanc was produced from fruit grown in Knights Valley. The grapes were handpicked from the shady hillside of the vineyard. The warm days and loam soil provide for thorough development of fruit flavors, especially beneficial to Sauvignon Blanc grapes.

The 2014 growing season was an ideal growing season with balanced acids and sugars. The grapes were allowed to reach their optimal ripeness, and we began harvesting on September 13, 2014 at 23.0 brix, a few weeks later than usual. This increased time on the vine resulted in small, yet intense, clusters that maintained their vibrant acidity, while also having significant concentration of flavors and aromas.

Our Sauvignon Blanc has bright floral and citrus aromas. The crisp flavors of green apple, melon, lemon and white peach with a hint of minerality. Elegant, but with a vibrant intensity of flavors, the wine has a dry crisp, refreshing finish. Fermented in stainless steel with no oak aging is the perfect accompaniment to Seafood, Salads and cheese platters.
