

OPTIMA

Optima is a family owned and operated winery that specializes in making limited-production wines. Located in the heart of Healdsburg, we are blessed to be at the center of some of the best appellations in the world. It's been said many times, "great wines begin with great grapes." We only source the absolute best of each vintage; this allows us to be able to meticulously follow our passion to preserve the unique characteristics of each vineyard. To do this, the harvested grapes are handled separately in "small lots" throughout fermentation. This allows Mike the winemaker and our talented cellar crew to bring the individual lots to their fullest potential before the final blending.
