

RED CIDER

ARTISAN CIDERS

Crafted from great cider apples in the heart of Washington apple country

100%
RED-FLESHED APPLES
Washington State

Cidermaker's Notes

Descended from wild trees native to Kazakhstan's apple forests, these brilliant red-fleshed apples are rich in natural pigment, yielding flavor-packed, dazzlingly red cider.

These red-fleshed apples deliver beautiful notes of cranberry, cherry, strawberry and rhubarb. Off-dry and refreshingly tart.

Naturally Delicious NO ADDED COLORS OR FLAVORS

Producer Profile

Our ciders are crafted from some of the best apples on earth, grown in sunny central Washington on our own orchard and a small network of dedicated growers. We want to showcase the best flavors you can get from these special varieties, gracefully aging them to allow the tannins to mature into rich flavors before bottling.

The resulting ciders complement a wide variety of culinary treats, from classic dishes to innovative fusions. Pair them with artisan cheese and you're in for a real treat!

For tours and tastings at our small cidery, please contact us – we look forward to your visit!
