

Villa San Maurice Winery

ESTABLISHED 2001

In 2001, Villa San Maurice Winery created its first wine for commercial consumption – a delicious Pinot Grigio with elegant flavors and notes, drawing on the Italian heritage of the winemaker.

The result was a spectacular wine showcasing the ability of a California vineyard to produce this wonderful, Italian varietal. For the next 9 years, Villa San Maurice perfected its pinot grigio and built a loyal following for the delicious wines. In 2010 Angelo Pera took over the reins of Villa San Maurice Winery and expanded the Villa San Maurice line of wines to include Chardonnay, Cabernet Sauvignon, Merlot and Pinot Noir. With the winery located in California's Central Coast, Villa San Maurice wines are from multiple different micro-climates within the Central Cost Region.

Keeping with the Italian heritage of the winery, Owner and winemaker Angelo Pera and winemaker Philip Zorn are hand-crafting delicious wines that showcase the fruit and terroir where it is grown, in an elegant, fruit-forward style. We feel that wines are meant to be enjoyed and should be soft and pleasurable. Each wine is crafted to be enjoyable and interesting in your mouth, leaving an essence of the natural terroir to challenge your senses. Our wines are never over-oaked. We use only the best quality barrels and equipment to create our delicious Villa San Maurice wines so that you can enjoy these wines as our Italian ancestors have.
